PROFESSIONAL EXPERIENCE

IBM | Working Student | Tech Sales Specialist (Storage) | 10/2024 - present

- **Strategic Account Analysis:** Creation of data-driven market overviews for key accounts using CRM and marketing analytics tools.
- **Process Optimization & CRM Reporting:** Documentation of software rollouts in IBM Sales Cloud and liaison between management and sales for aligning project roadmaps.
- **Organizational & Value Chain Analysis:** Visualization of collaboration between Engineering, R&D, and Sales to increase transparency of internal processes and product responsibilities.
- **Strategic Customer Win-Back:** Development of concepts for reactivating existing customers through analysis of infrastructure challenges and suitable solutions.
- **Master Thesis (AI Infrastructure):** Design and evaluation of multi-tenancy architectures for LLM inference on GPU-based on-premises infrastructure using IBM Fusion HCI as a case study.

Mercedes-Benz AG | Bachelor Thesis Student & Intern | 09/2023 – 07/2024

- **Empirical Analysis of Software Culture:** Investigation and quantification of critical factors in software developer culture through the selection and adaptation of specific measurement instruments.
- **Open Source Strategy (FOSS):** Active support of company-wide FOSS initiatives to promote open-source standards in software development.
- **Data-Driven Insights:** Design and execution of internal surveys among software developers to identify optimization potential in the work environment.
- **Interface Coordination:** Organization and facilitation of team meetings for the integration of technical interfaces and improvement of cross-functional collaboration.
- **Content & Media Management:** Creation and management of media content for internal and external communication of tech topics.

Bayerischer Rundfunk | Social Media Manager | 05/2021 – 01/2023

- **Content Strategy & Production:** Conception and creation of visual content, stories, and posts for Instagram and Snapchat.
- **Performance Analysis:** Continuous evaluation of insights for strategic optimization of reach and engagement.
- **Community Management:** Active promotion of interaction and audience retention within social media channels.
- **Creative Writing:** Writing scripts for content productions and coordinating collaboration with actors/performers.

PRACTICAL EXPERIENCE

Area: Human-Computer Interaction (HCI) & User Research

- **User Research & Experiment Design:** Conception and execution of a between-subject design for investigating custom key layouts (n=10); analysis of accuracy, reaction time, and player satisfaction.
- **Adaptive Stirring Assistance (Smart Kitchen):** Conceptual development of a sensor-based mixing assistant prototype to reduce physical strain and optimize dough consistency during baking.
- **Methodology:** Conducting interview guides, requirements analyses, and creation of technical solution concepts (Value Sensitive Design).

Area: Software & VR Development

- **VR App for Mental Mindfulness:** Development of an immersive virtual reality application for stress reduction among students.
- **Game Development:** Full-cycle development of a mobile-first app for playful reading learning with intuitive controls.
- **Chatbot Development:** Conception and implementation of an interactive chatbot with a focus on intuitive user interaction and functional dialogue management.
- **Network Protocols:** Analysis and configuration of network protocols within the scope of IT infrastructure assessment.

Area: Emerging Tech

- **Cyber Security:** Expert presentation and paper on current threat scenarios and security strategies.
- **Lidar Technology:** Project work on distance measurement and environment mapping using lidar sensors.

SKILLS & CERTIFICATIONS

Certifications

- IBM AI Fundamentals

Programming (Basic Knowledge)

Java, JavaScript, C, HTML/CSS, SQL, Python

Software & Tools

Jira, Confluence, Unity3D, Adobe Photoshop, Figma.

Languages

German (native), Lingala (native), English (very good), French (good)

AI & Infrastructure Technologies

IBM Fusion HCI, Red Hat OpenShift, Kubernetes, OpenShift Virtualization, Ollama, Open WebUI, IBM Granite, NVIDIA GPU Passthrough, RAG, MCP

ACADEMIC CAREER

Hochschule Wiesbaden | 2024 – present

Master of Science, Media Informatics

Hochschule Offenburg | 2020 – 2024

Bachelor of Science,
Media and Information Science
